

Dodson Repair Recommendation

I'm a Real Estate agent in north Dallas. I was in need of a foundation repair company to give a complete and honest assessment of my client's foundation in the garage area. Dodson Foundation came highly recommended to me from other agents in my office. So, I gave Dodson a call. Tom, the owner, was courteous and though completely booked, agreed to make time in his schedule to come assess my client's foundation.

He arrived right on time. Punctuality is important. He was genuine and spoke about issues in clearly understood laymen's terms. After assessing the cracks and some movement in the wall, he determined that repair was not necessary at this time. He didn't try to sell me his services. He simply told the truth. He did, however, give me an estimate to shore up the foundation if my client desired. The estimate was very reasonable.

Based on my experience with Dodson Foundation, and the glowing recommendations I received from the other agents in my office, I would whole -heartedly recommend Dodson for any structural foundation work.

Sincerely,

Rob Bolden/ Keller Williams
