

Dear Tom:

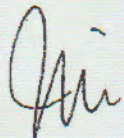

I just wanted to write and thank you for the great job you have done on my house. We started with a short list of items from the inspection that grew into quite a substantial renovation of the 'guts'; Including painting, replacing doors, repairing gutters, relocating and replacing the air handler, various fixture installations and finally now the insulation that took almost 4½ months.

You were able to deal with me, my schedule and my pets as I traveled for work and gave you updates on how I thought we were doing and adding items as we went along.

You proved to be flexible, communicative and professional. You and your crews were so trustworthy and honest that I was free to leave the house in your hands for extended periods even after I moved in with no concern that all would be well on my return..

What could have been a difficult process for me worked out to be mostly pleasant.

Thanks again for the work and for your attention to the details of this job.
