

To Whom it May Concern,

This letter is to refer Dodson Foundation and Repair. I've known Tom Dodson and used him for many years as a foundation repair company to my clients. He has repaired no less than 12 homes for me over the years including my own home. He has been very responsive in doing evaluation request and never charged us. His estimates have been verified when Civil Engineers have been requested and is usually spot on with that of the Engineer. He is still my go to guy for foundations and he has even completed some drainage issues on some of my client's homes.

If you need a good reputable foundation and Drainage Company, I would strongly recommend Dodson Foundation and Repair.

Best Regards,
