Tom

Thank you so much for all of your help on my foundation. You are the only person that gave an estimate and noticed the sink holes under the house and spoke to me about what they were and the quick damage they would cause. I also appreciate that you were willing to work with me on payments due to my personal financial situation and the fact that the repairs could not wait.

Your crew was profession, quick and clean. They are hard workers and worked to finish the job in one day. They were also very respectful of my dogs, who do not necessarily appreciate visitors! Upon completion of the job, there was only minimal evidence that work had been done, and no trash was left by workers. The bushes and items that were lost were carefully placed by the curb so the city could collect them on bulk trash days.

I appreciate your attention to detail and can not express my gratitude to you for helping to fix the foundation. Thank you so very much!

Sincerely,

Robyn Elliott
