Subject: Thank You

Date: Mon, Dec 5, 2016 4:06 pm

Tom,

Thank you so very much for checking our home's foundation today. Your service was wonderful and I learned something new.

Below is the text I sent to neighbors, and am copying a few friends via copies of this e-mail.

You are greatly appreciated.

Rosemary Endress

Hi Neighbors,

Want to highly recommend Tom Dodson of Dodson Foundation @ 972.429.8888(o) or (c) @ 972.816.7094.

He was recommended by our Allstate inspector as the best & most honest in the business.

Tom walked me throughout the house showing me measurements and explaining (in terms I could understand) what the difference in levels were from one area to another. He also explained that the type of cracks we have are from moisture under the foundation. In the end, there was such a slight difference in measurements that there was nothing he could do for us, so we just have to get our cracked walls & beam fixed. He doesn't do that and didn't have anyone to recommend. No payment required as he does free estimates.

Tom's a good name to add to your list & to pass on to others.

Rosemary
