Mr. Tom Dodson
Dodson Foundation and Drainage Company
Post Office Box 1699
Allen, Texas 75013

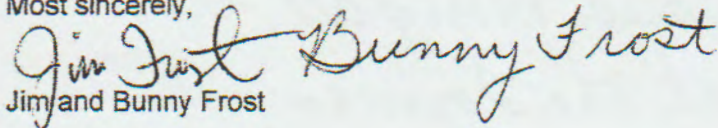

Dear Mr. Dodson,

Bunny and I want to thank you for the excellent foundation work that was recently completed on our home. Early on, your knowledge and experience became very apparent to us. Your honest assessment and estimate of the work needing to be done in order to repair our foundation issues almost exactly mirrored the report we had received from an independent engineer. Previously, we had received estimates from other foundation repair companies but you easily stood out from that crowd.

Your highly professional crew that performed the work on our home left a strong impression with us. They completed the work in a timely manner. Then they worked very hard putting more dirt around the foundation and to clean-up our patio and yard. No kidding, it all actually appeared to look better than before. We found your assistant and crew leader, Omar, to be very informative and courteous. He always patiently explained any issues or questions he had for us on the work being done at the time.

If the need ever arises, we will not hesitate to call Dodson Foundation and Drainage Co. Thank you again for the pleasure of doing business with you.

Most sincerely,

Jim and Bunny Frost
