Tom,

Your crew did a good job on my foundation repair. So, thank you.

I have just posted a recommendation for your business on Next Door, WyndSOR Park Estates- BPE-CWP. It is a community email blog, where members share neighborhood alerts, recommendations, news and general info. See the post below:

This went out to several thousand local area residents.

Foundation Repair

We all know about North Texas black clay soil, its propensity to swell and shrink when the moisture content varies, and the resultant foundation problems experienced by homeowners. I just had my foundation repaired and would highly recommend Dodson Foundation Repair of Allen TX. The repair crew was prompt, efficient and fast, and completed the job in two days.

The company is owned by Tom Dodson, who has over forty years in business. He knows the soil conditions here, and which method of repair is best suited for your specific situation. He takes pride in his work and offers a 100%, no exceptions warranty.

So, if you need foundation repairs, talk to Tom Dodson
