RE: REFERENCE FOR DODSON FOUNDATION & REMODELING

To Whom It May Concern:

Over the last couple of months, I have had the pleasure of working and dealing with Tom Dodson and his crew from Dodson Foundation and Remodeling.

I needed root barriers installed around my house as well as a wood deck built in my yard, and had hired Dodson to do the root barriers on the recommendation of my arborist and tree service. They had told me that Tom Dodson was one of the few contractors in the area who knew the correct way to install root barriers and that they highly recommended that I use him and only him for my installation, particularly because my yard and tree configuration would be a challenging one.

I found Tom to be a very down-to-earth, honest and genuine person who is truly interested in pleasing the customer and making sure that all jobs are done the way they should be. He also charges reasonable prices for great work. He makes you feel confident that, no matter what sort of problems arise during the job, he will solve them to your complete satisfaction, and he in fact does just that. The root barrier installation went so well that I asked Tom if he would go ahead and build me a wood deck. His crew just finished it this week and I couldn't be happier with it! His crew worked incredibly hard in the summer heat and yet still took the time to care about the details to make it exactly what I had wanted. Both projects at my house turned out exceptionally well.

I would highly recommend Dodson Foundation and Remodeling to anyone who could use their services. And if anyone would like further information on what they did for me, I would be happy to discuss it if they want to call me at my phone number below.

Very sincerely,

Karen G. Medley
